### I. ADDENDUM Technical guidelines for all Shows

#### **Introduction**

A complete description of the following topics should be presented by the committee of any proposed new show to the EAHSC for affiliation, together with the schedule. Information on the same topics must reach all exhibitors prior to the show with entry and parking cards if needed (this may be included with the Schedule).

#### **Access and parking**

Access to the show grounds should be clearly signed and from a certain distance, depending on the location of the show (open country or city). Ample parking space should be provided sufficiently close to the stabling area. Stewards must be appointed to regulate proper parking of horse vans.

**Stabling** The stables should be grouped in one (max. two) areas. The horses must be housed in box stalls (covered if out of doors), made of resistant material providing the best possible conditions of security of the minimum dimension of 2,8 m by 2,8 m and minimum height all around of 2,7 m, for all foreign entrants. Proper bedding should be available on the show ground free of cost. A notice will be posted to the effect that "Training of horses will not be permitted in the stable area between the hours of 20.00 hrs and 06.00 hrs".

Running water must be available at the stables as well as a feed store where oats and hay can be purchased at current prices.

#### **Show ring**

Must be of proper size, at least 1'200 square meters (with the longer side at least 60 metres), of square or rectangular shape and of the least slippery ground as possible. It must be fenced all around with one or two entry-exit gateways manipulated by stewards. The layout of the show grounds must be attractively decorated as suitable for an international event.

The jury should be placed with their backs to the main spectator area. The show staff and/or officials should stand at a distance behind the judges and communicate only when indispensable.

Sufficiently large covered stands should allow the spectators to be seated while attending the show. The public address system must be clearly audible from the grandstands, the ring, the paddock and the stables.

#### **Paddock (collecting ring)**

should be of sufficient dimensions to allow all the horses of the biggest class to wait safely.

It must be located close to the show ring in order to allow the horses to pass easily from one to the other without having to walk over a long distance. The passage from paddock to show ring must be kept free from the public.

The precise schedule of the day's classes must be marked on a large signboard at the entrance to the paddock.

Stewards must control both the entries and the exits to the paddock and the ring according to the proceedings of the show.

#### **Staff**

The number of staff members of an International Show will depend on the importance of the show, size of the grounds, number of entries foreseen and/or other technical considerations.
